First Time in Armenia Teaching Medical Education
in Cutting Edge Stereoscopic 3D Technology.

»» About YGU

Revolutionize 3D Medical Education

GLADZOR University is one of the famous medieval Armenian universities, founded in the year 1291. The University was operated in Gladzor village of Yeghegnadzor region of Vayots Dzor region by Nerses Mshetsi until 1340.

Gladzor University had an internal charter and academic degree. By its nature and inclination, it resembled a university of social sciences. The University taught theology, philosophy, rhetoric, arithmetic, and astrology.

Yerevan Gladzor University (YGU) (till 2006 called Gladzor Management University) was founded in 1990, restoring and pursuing the rich intellectual heritage of the great medieval Armenian University of GLADZOR.

Within 30 years of its management, the University has been consistently and firmly implemented an educational academic procedure in compliance with international standards.

YGU Faculties

The University has world-class faculty members trained in modern pedagogy principles of teaching. It comprises highly qualified academicians' professors, doctors, surgeons and other specialists with deep theoretical and practical skill sets. All this is augmented by rich educational programs and course syllabi.

In recent years, the teaching staff of the university has been regularly replenished with Gladzor graduates who have defended their PhD theses.

Current Medical Learning Methodology

150 Average students in a classroom

Teachers still use black boards or displays to deliver learning in class rooms

Does not foster collaborative or interactive learning

Limits students' flexibility to explore and learn on their own

Results In Current Medical Education

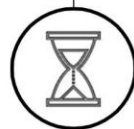

Hand-drawn/2D illustrations cannot convey depth and fine details

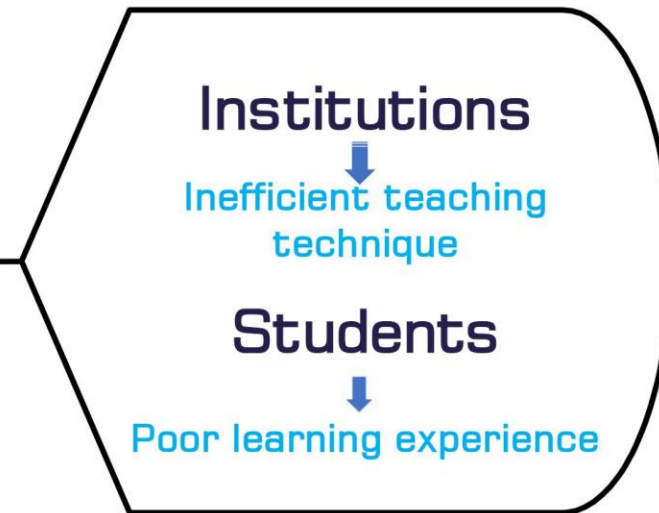

Limited access to content after lecture

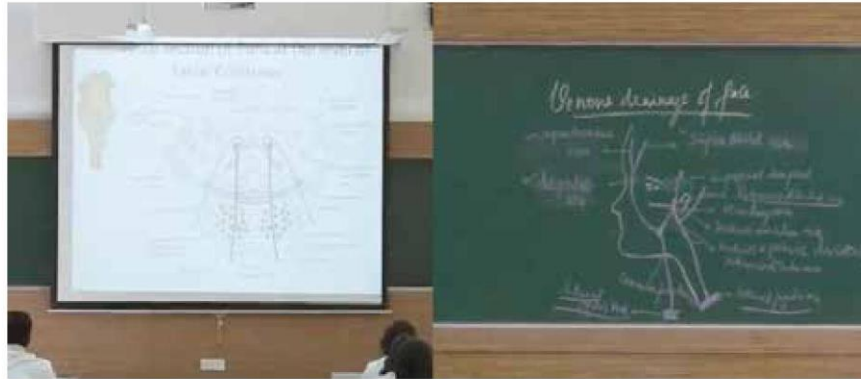

Not legible to most students

Lecture hours lost in drawing illustrations

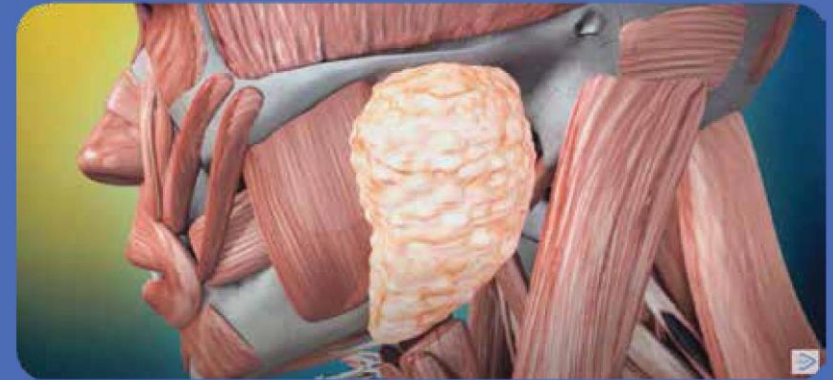

Problem vs. Solution

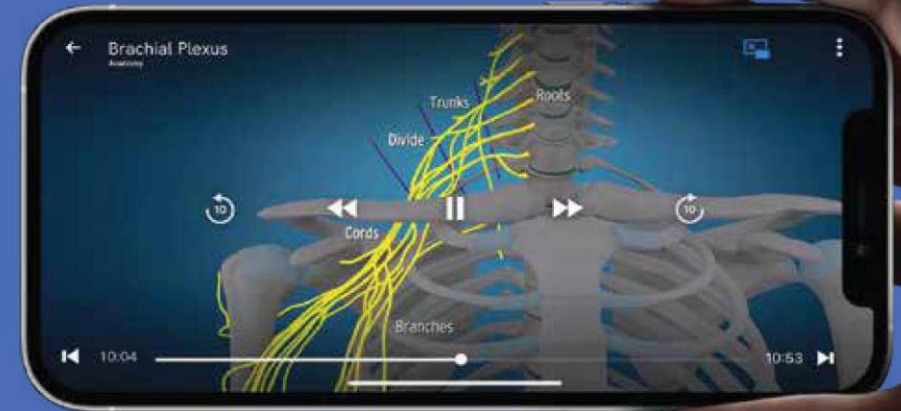

Hand-drawn / 2D illustrations

Limited access to content after lecture

Stereoscopic 3D immersive content

Mobile App with easy access to classes, notes and videos for pre-learning and post-learning

Brand New Learning

The magic with Medimagic

Power-packed compelling content, curated by leading medical experts to supplement our curriculum by giving our students a seamless learning experience

✓ Powerful visuals

With adaptive futuristic technology that helps visualize various structures in interactive 3D

Stunning 3D videos

✓ Problem-based learning

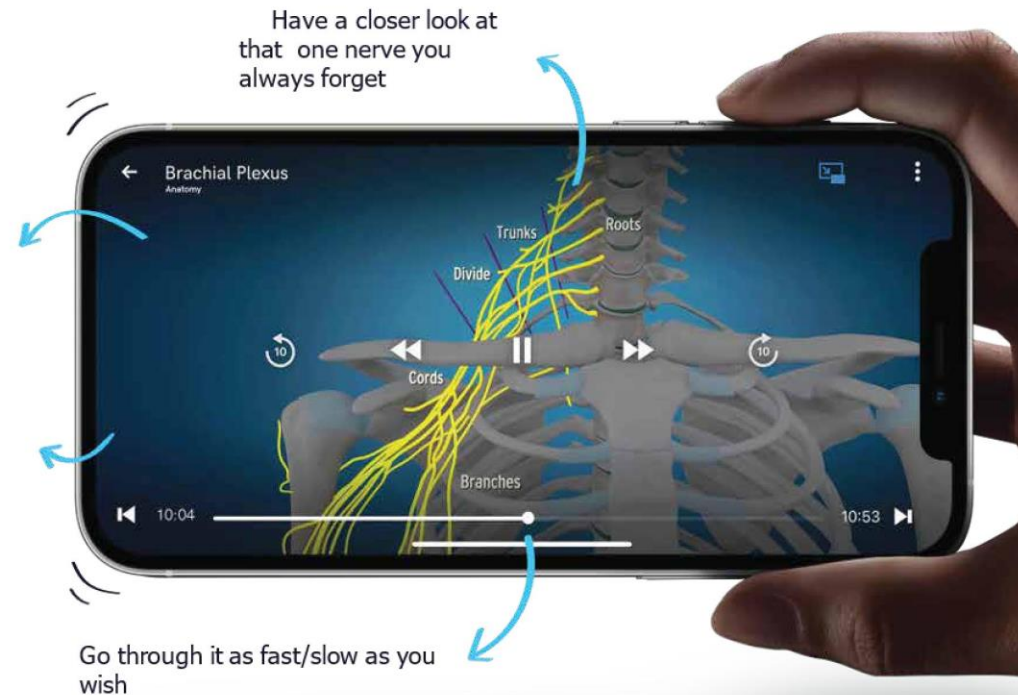

An approach that will guide students to apply information in real-life clinical scenarios

Download and watch later

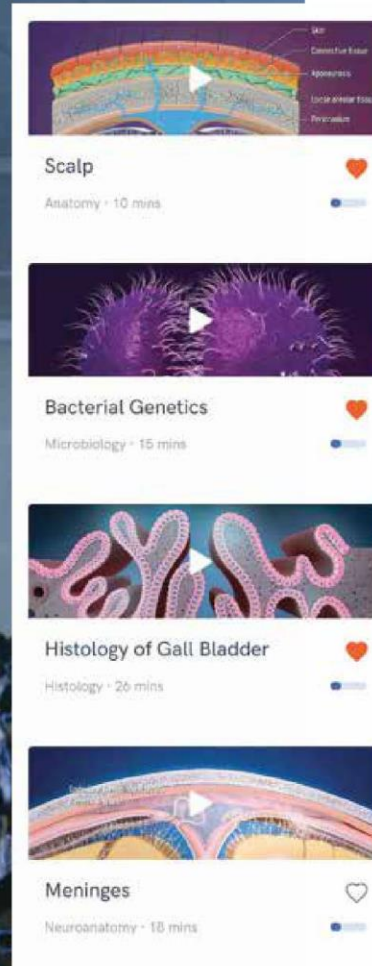

Featuring **100%**

Authentic content from top medical experts

3D Education with Medimagic

World's First Immersive 3D Learning Platform At GLADZOR University

A Giant Leap in Medical Education

A powerful teaching-learning platform in stereoscopic 3D to experience the science at a touching distance.

Personalized learning with immersive 3D

Use S3D MediMagic for an unbelievable depth perception and ensure every student receives equal attention

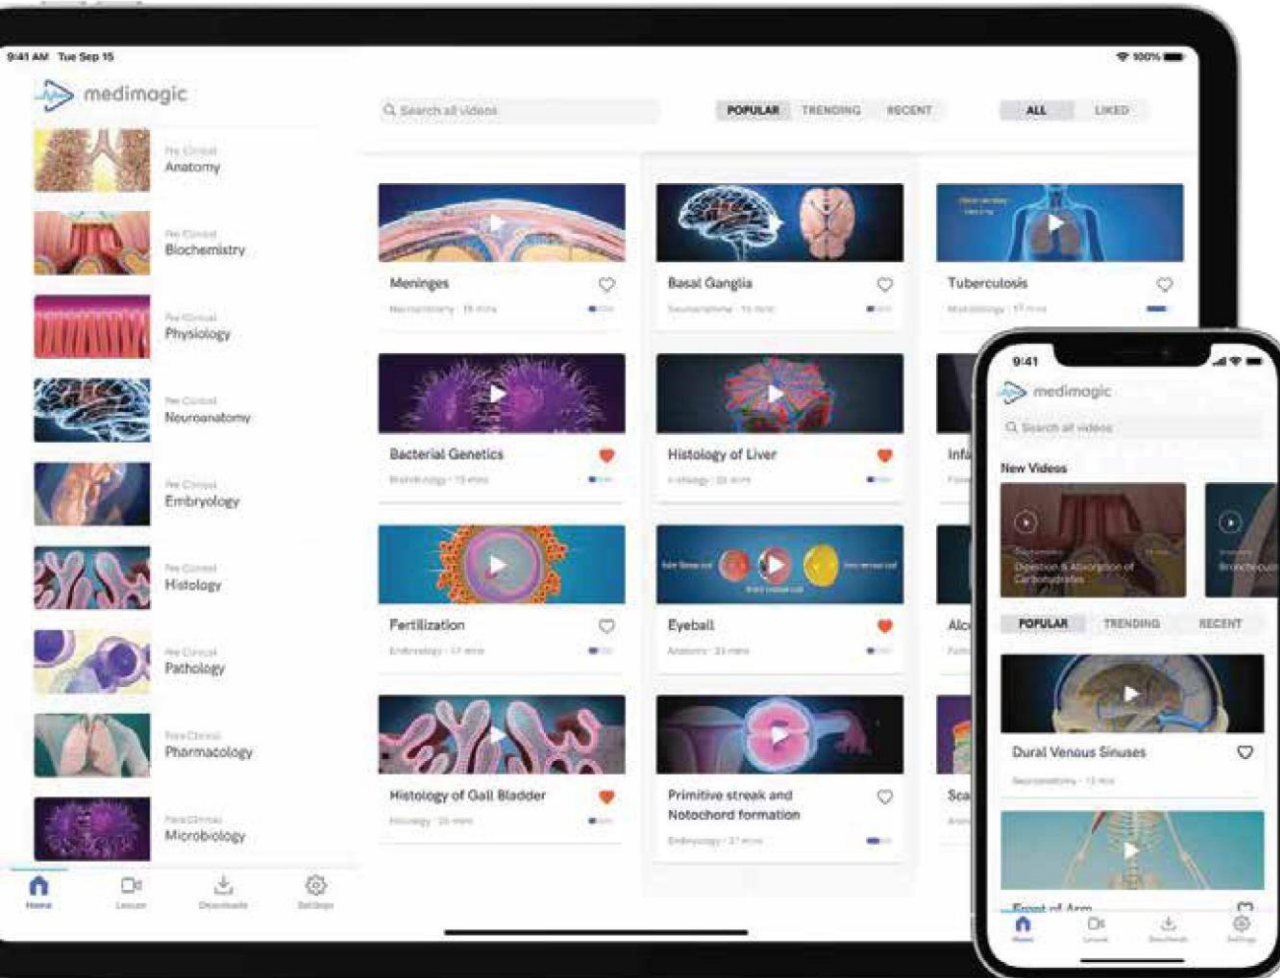

Enhance the power of words

Designed based on research of cognitive learning habits, MediMagic's courses are consistent with Mayer's Principles of Multimedia Learning

▶▶▶ We Provide to our Students An App Unlike any other

Outstanding Performance with Ultimate Learning

Incredibly easy user-interface with an unparalleled experience, MediMagic App is a student's learning companion anytime, anywhere

- ✔ Detailed 3D video-led content
Stunning in-depth understanding and multi-angle visualization for an enhanced learning experience with engaging content
- ✔ Integrated learning
Personalized learning through pre practice, and post learning for better understanding

Deliver immersive
content in-class

Teaching with Stereoscopic 3D
Technology with Robust LMS

Faculty

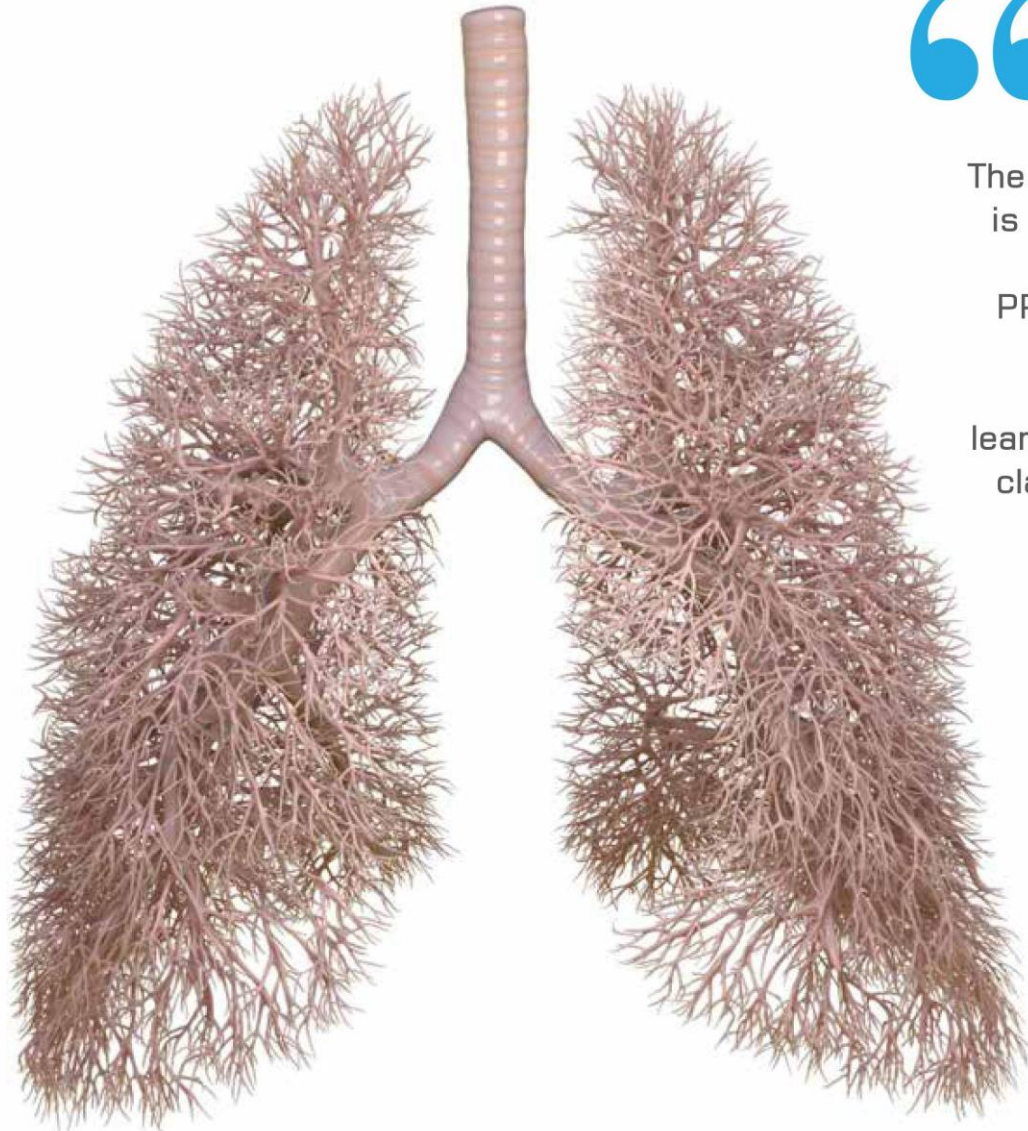

Complete with a
Mobile App

Easy access to classes,
notes and videos

Student

“

The animations developed with S3D technology is very innovative. The technology with scope to add-on other features like annotations, PPTs, questions in MCQ format pertaining to each subdivision of the course content will certainly have a far-reaching impact on the learning process. This can be done both during class hours and in a private ambiance of students, whether in group or individually.

Dr. CN Chandra Shekar

Former Course Director and Chair KMC
International Center, Manipal, India
